

Leading lighter lifestyles

Aspect® bi-folding doors

Get the
WOW
factor

The Aspect bi-fold door collection

The superb collection of Aspect bi-fold doors offers market-leading aesthetics, engineering and value – as well as being the first bi-fold door system in the UK to achieve BBA certification and Secured By Design status – for your complete peace of mind. And with a choice of designs and guaranteed high-quality performance, you can be assured that Aspect will bring you the space, comfort and low-maintenance luxury of modern living.

Add
value
to your home

Easy access

A low-threshold option allows easy access between internal and external environments.

Stunning designs and
the feeling of more
space will enhance your
lifestyle and improve the
value of your home

Imagine wide open spaces allowing air and light to flood into your home, instantly creating a contemporary look and feel. Our new 'panoramic' bi-fold doors will add the wow factor to your home and can be fitted wherever you need easy access to your patio or garden. No wonder more and more people are choosing our PVC-U bi-fold doors to add that extra dimension to their homes.

The collection offers ultra slim frames for eye-catching looks, clever new design features and a wide range of colours to suit every home perfectly. In short, our new folding sliding doors are superior to any other similar PVC-U products you'll find on the market today.

Stunning aesthetics

Want to create a really stunning feature for your home? Aspect bi-fold doors up to 6m wide can help you do just that.

BBA & Secured By Design

Aspect is the only bi-fold door on the market to gain British Board of Agrément (BBA) approval in addition to Secured by Design status.

PAS 24

We know that the security of your home is vitally important, that's why we have built our doors with enhanced security features, which has earned us the comprehensive PAS 24 security certification.

We've also included stainless steel anti-jemmy pins in our door design. This means that the door can't be removed from the outside by intruders trying to get into your home. These pins are enclosed in the roller track for maximum security.

Because
security
matters

Even more streamlined

Our panoramic doors have been designed with slimmer, uncluttered sightlines to make them less obtrusive. This means that you see less of the doors and more of your patio, garden or the interior of your home.

Simpler to fit

We've made our new door range easy to install thanks to a slim-stepped outer frame which contains all the door hardware inside the frame. There's no need to cut plaster or make alterations in your home to make sure the doors fit. The benefit to you is minimal disruption and mess in your home when they're installed.

Easy-use, unique D-handle

The unique D-shaped interior handle (shown above) allows the doors to fold back flatter. So when they're open they look much neater and won't distract from the beautiful view of your patio or garden. Plus, the D-handle has an intelligent anti-mishandling feature which stops your floor from being scraped by the shoot bolts, and it protects the bolts from being damaged and needing replacement – the main cause of repairs on folding sliding doors.

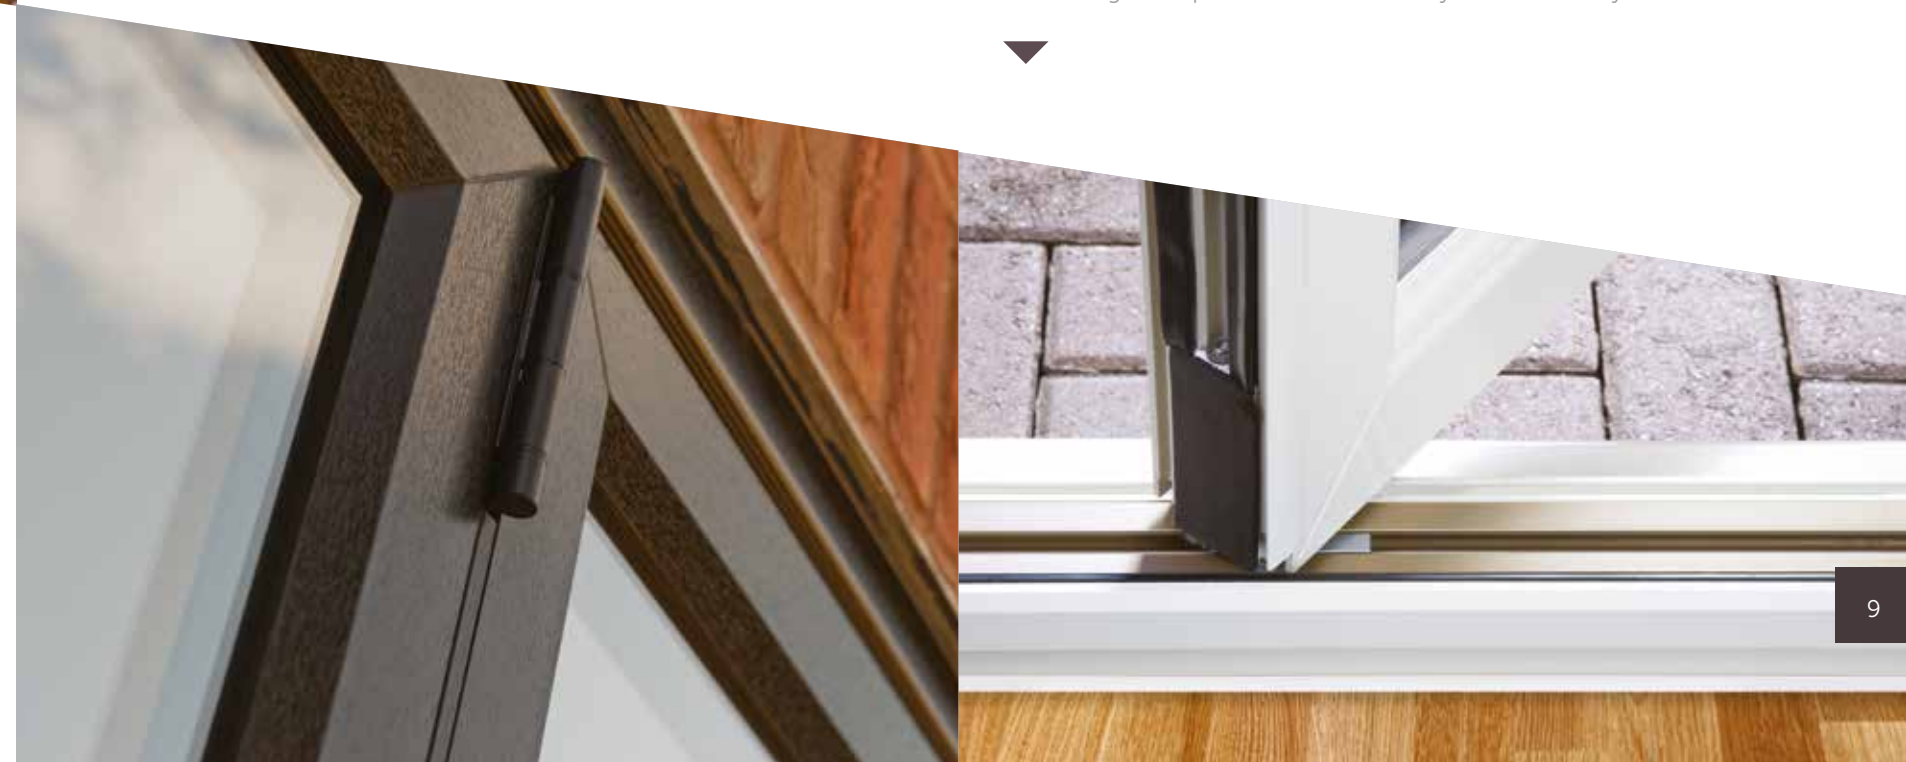

Gaskets are hidden with a patented trim

We've incorporated a trim to hide the seals between the door leaves. This adds to the whole aesthetic look and feel of your new doors, as you won't see a line of black seal between the doors when they're closed!

Easier, smoother operation

Each bi-fold door has a built-in four-rail aluminium roller track so that it glides open or closed smoothly and effortlessly.

Warm in winter...

When the harsh British winter is in full swing, it's vital that you choose doors which can withstand what it throws at us. That's why our PVC-U doors are manufactured with a square-edge profile which gives a superior seal along door edges, making them draught and weatherproof.

Tested to BS6375-1:2009 (Performance of Windows and Doors), our doors far exceed the minimum requirements set out for the most extreme weather test. They also meet the British Standard minimum requirements for construction, security, safety, weather-tightness and strength of performance. This means behind their striking looks, your folding sliding door is robust and built to last – giving you many years of pleasure.

...cool in summer

Bi-fold doors create the perfect summer ambience, and with stunning openings of up to 6m wide, you really can bring the outside in. Depending on the door configuration you choose (see page 18 for more information), you can utilise various opening positions to allow refreshing ventilation into your home on those hot Summer days.

Imagine hosting a Summer garden party or barbeque – your bi-fold door will offer seamless access between your home and garden. Plus, it will make it easier when you want to take your furniture outdoors for alfresco dining!

Realistic woodgrain finishes

This 4-2-2 configuration Aspect bi-fold door in Irish Oak is an authentic alternative to timber doors. To see the full range of woodgrain foils, go to page 17.

Access
for all

In addition to our standard threshold, we offer various options for those requiring a flusher-fitting low-threshold, to best suit your needs.

For external doors, we offer three low-threshold options, including a Part M compliant double ramp threshold that allows easy pushchair and disabled access, as set out by the Building Regulations.

If you want a low-threshold for an internal bi-fold door, then we have a flush-fitting threshold that allows seamless integration of two rooms.

**Building Regulations Part M
compliant double ramp threshold**

Versatile space at its best

Bi-fold doors create a wider opened space than French or in-line patio doors, enabling you to make the most of your living area. When fully retracted, they create up to a 90% open space, turning your outside area or patio into another useable room. Doors can be manufactured up to an impressive six metres wide, offering

a simple yet stunning way to enhance your environment. And because every home is unique, we offer a choice of folding options, allowing you to choose how your door works. This maximum versatility helps you to enjoy and expand your home in the way that works best for you.

Super wide openings

This impressive duo of Aspect bi-fold doors shown in Black Ash are a stunning addition to this property

Real versatility

A 6-3-3 door allows the central doors to be opened like a French door when a full opening is not required

All about
choice

“Aspect appealed to us because of its stunning aesthetics and the fact it offered so many unique features. As the kitchen and living room are at the heart of our home, we wanted to create a more open and accessible space which our family can make the most of. We are over the moon with the finished result!”
