Interpretation of the legend symbols

Original BURG-WÄCHTER letter boxes

Quality Made in Germany - approved according to the European norm EN 13724

What does the European norm "EN 13724" for letter boxes mean and which advantages are offered?
 All letter boxes in this catalogue which are marked with the symbol "EN 13724" correspond to the high demands of the European standard and are recommended by the postal service.
 The standard EN 13724 defines the size of the letter box, which means sufficient space for your post and the slot dimensions.
 Furthermore the new European standard classifies the protection against breaking-in and corrosion.
 Even the lock quality and resistance of rainwater penetration is tested.
 In order to convey a clear overview of the quality of the particular letter box, BURG-WÄCHTER has developed a "Letter Box Passport" which contains the information of the following criteria corresponding to the demands of the new European standard EN 13724:

Category	Quality / feature	Pictogram
Type	1. for interior use 2. for exterior use 3. post insertion (wall assembly) 4. post insertion (door assembly)	
Format	1. landscape format 2. portrait format	
Corrosion resistance	0. no defined corrosion resistance 3. standard corrosion resistance 4. higher corrosion resistance	
Resistance against breaking-in	1. standard resistance against breaking-in 2. higher resistance against breaking-in	

Tip: To have more convenience and pleasure with your letter box, choose a model according to EN 13724 - this will be the right decision!

BURG-WÄCHTER letter boxes with interior lighting. For easy removal of your letters even if it is dark outside.

BURG-WÄCHTER letter boxes with comfortable depth. For everybody who gets a lot of mail or wants to leave his letter box alone for a week.

BURG-WÄCHTER opening stop: The special hinge ensures a practical handling. The opening stop protects letters from dropping.

BURG-WÄCHTER letter boxes made of high quality **stainless steel** are extremely weatherproof and long-lasting. Stainless steel is a refined natural product which is durable throughout many decades without varnishing.

Examples of combinations stand
UNIVERSAL 150 with letterbox Modena 857
anthracite, front view (center), rear view (below)

Universal 150 Ni

BURG-WÄCHTER letter box stand made of stainless steel/rustproof.

- universal use for all letter boxes made of stainless steel, galvanised steel and plastic
- consists of 2 tubes, 150 cm length each, Ø 32 mm, with special punching
- letter boxes are secured from the inside onto the tubes, offering thereby increased theft protection
- to be embed in concrete or for assembly with mounting base BASE Uni 150
- the tubes can be shortened as required
- this stand can also be fixed to a wall with usual pipe clips
- not suitable for Opera, Quadus and paper boxes

Mounting base

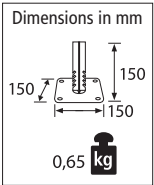

Convenient mounting base

- For letter box stand Universal 150 Ni and NORDIC
- Set including 2 pcs.
- Easy installation – no concreting
- For screwing on firm ground
- Assembly instructions:
The assembly must be performed on a solid surface (e.g. concrete). The stand in the height (length) can be adjusted individually (shortened). It is to be placed centrally on the base (foot) and pressed down firmly. If necessary, a plastic hammer can be used.

eBoxx Parcel box with depot function

The mail order business is booming, more and more consumers are shopping online and having their purchases delivered to home. This is a problem when there is no one at home to receive the parcel. There is now a solution, the practical eBoxx by BURG-WÄCHTER. Depending on your needs the eBoxx is available in six different sizes with opening dimensions up to 72 x 53 cm (height x width) and a usable depth of 40 centimeters.

About the door:

- Corrosion resistant
- 3-point locking system and 3 hinges (from size D)
- Door opening restrictor
- Emergency opening possibility from interior (child lock)
- Door stay to prevent unintentional opening

Durability:

- Strong laser welded body
- Sophisticated ventilation system
- Bottom braces

Practical:

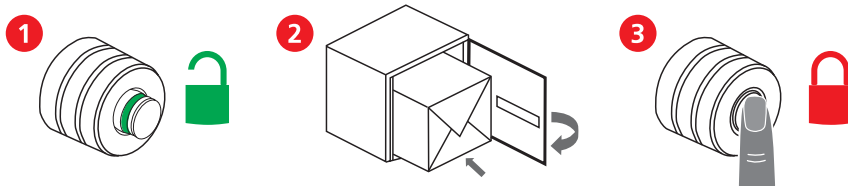

- Including notification card for continuous use, with pocket
- Master key system included in the delivery, thereby parcel box sharing possible (for size DAA).

Model overview and further information, please see p. 126-127.

Optional stand
For freestanding installation.

Safety latch lock (patent pending)

The door of the parcel box has a special snap lock – the parcel service can open the door. Once the parcel has been delivered, the lock is secured by pressing the push button. The eBoxx can then only be opened by the owner with the key.

eBoxx

Parcel box – Secure parcel delivery while you're out.
